PROFESSIONAL SUMMARY

Business Analyst and Power BI professional with commercial experience building automated Power BI reports and dashboards using DAX, Power Query and SQL. Experienced across data extraction, transformation, cleansing, validation and analysis of operational datasets, translating business requirements into KPI reporting and scalable BI solutions. Strong foundation in data modelling, ETL, the Microsoft Power Platform and advanced Excel, partnering with cross-functional stakeholders to improve reporting efficiency, data accuracy and decision-making.

TECHNICAL SKILLS

Business Intelligence: Power BI, DAX, Power Query, KPI reporting, data visualization, report automation
Data & Databases: SQL (MySQL, PostgreSQL), CTEs, window functions, ETL, data cleansing, validation
Data Modelling: Star schema, fact & dimension design, relationship design, Power BI modelling
Programming: Python (Pandas, NumPy, Matplotlib, Seaborn), SPSS
Power Platform: Power Apps, Power Automate, approval workflows
Analytics & Reporting: Advanced Excel, pivot tables, statistical analysis, forecasting

WORK EXPERIENCE

Business Analyst
May 2026 – Present
Adani Enterprises Ltd.

- Engineered 5+ automated Power BI dashboards using DAX and Power Query to centralize enterprise data, reducing manual reporting time by 15% and providing real-time KPIs for 20+ stakeholders.
- Analyzed cross-functional project data using SQL and Excel, identifying operational bottlenecks and delivering visual insights that improved project tracking accuracy.

Business Analyst Intern
Oct 2025 – Apr 2026
Adani Enterprises Ltd.

- Led data analysis for the Hunger Box application deployment, using SQL to extract usage metrics and inform cafeteria capacity planning.
- Coordinated with 3 internal teams to resolve implementation issues, maintaining 99% system uptime through the pilot phase.

Power Platform Developer
Jan 2025 – Apr 2025
Adani Power Ltd.

- Designed and deployed PRAVIX in Microsoft Power Apps to automate APM user access requests, cutting request turnaround time by 30%.
- Configured multi-level approval workflows and automated notifications, with SOPs for standardized operational compliance.

Sales Executive
Jan 2023 – Feb 2023
Dabur Ltd.

- Used historical sales data and customer analytics to optimize retail supermarket interactions, contributing to enhanced consumer engagement.

DATA & ANALYTICS PROJECTS

E-Commerce Customer Segmentation (RFM) | Python · SQL · Power BI [code]
Sep 2026

- Cleaned 541,909 retail transactions to 392,692 valid rows in Pandas, then scored every customer in PostgreSQL using CTEs and NTILE(5) window functions.
- Segmented 4,338 customers into 11 segments, quantifying that 20% of customers drive 64% of revenue and that 646 lapsing accounts hold £1.03M of historic spend.
- Delivered the Power BI layer: a SWITCH(TRUE()) segmentation column plus revenue, customer and AOV measures.

SaaS Subscription Funnel & Churn Analysis | Python · SQL · Power BI [code]
Jun 2026

- Instrumented a four-stage funnel from 66,000 raw event logs, isolating a single step losing 57% of users.
- Modelled cohort retention and MRR movement in PostgreSQL using generate_series, showing 62% of cancellations occur within three months and shifting budget from win-back to onboarding.
- Built DAX measures for churn rate, retention rate, active and lost MRR and net revenue retention.

Retail Inventory & Margin Optimization | Python · SQL · Power BI [code] Mar 2026

- Standardized a 6,220-row warehouse extract with four SKU formats, missing costs and negative counts, merging it with the product master to derive margin percentage per SKU.
- Computed daily sales velocity, days of supply and ABC class across 1,200 SKUs and 5 warehouses, flagging 234 SKUs carrying £1,786/day of gross margin at stockout risk.
- Identified 174 shortages resolvable by inter-warehouse transfer instead of purchase orders.

Rural Gujarat Response to SDG 6 (Research Paper) Jan – Dec 2023

- Analyzed primary survey data from 400+ respondents across 5 villages using SPSS and Excel against 20+ water, sanitation and hygiene KPIs.
- Delivered recommendations to the Gandhinagar Municipal Corporation to improve resource accessibility and operational outcomes.

EDUCATION

PGDM in Big Data Analytics Jul 2024 – Apr 2026
Adani Institute of Digital Technology Management (AIDTM) | CGPA 3.59/4.33

BBA (Hons.) in Marketing Aug 2020 – May 2024
Pandit Deendayal Energy University (PDEU) | CGPA 9.50/10

ACHIEVEMENTS & LEADERSHIP

- **Liaison Officer** — coordinated logistics and delegation support at the G20 Mayoral Summit for Mr. Sanjeev Sanyal.
- **Publicity Head** — managed communications for 'The Inspired Room' architectural club at PDEU.
- **Athletics** — state-level baseball player; teamwork, discipline and performance under pressure.
